Weight Management

Made from the Aloe leaf, Herbal Aloe Concentrate is a refreshing drink which contains Aloe Vera gel to give water a refreshing citrus twist.

KEY BENEFITS

- Contains 40% Aloe Vera gel derived from the Aloe Vera leaf
- Added to water, Herbal Aloe Concentrate provides a refreshing taste which may stimulate you to drink more water thus helping you to achieve the required fluid intake of 2 litres per day.
- Contains citrus to provide a refreshing flavour

WHY DO YOU NEED IT?

Whether trying to control your weight or leading a busy and active lifestyle, it can be hard to ensure you give your body the required daily fluid intake of 2 litres each day. Using Herbal Aloe Concentrate provides an ideal way to enjoy a healthy, refreshing and great tasting drink helping you to increase your fluid intake.

USAGE

Mix 3-4 capfuls (15-20 ml) with 125ml of water.

ALSO TRY

Why not complement this refreshing beverage with Herbal Complex tablets containing potassium which contributes to water and electrolyte balance.
